Vasca Cementoskin® per Outdoor

Bathtub in Cementoskin® for Outdoor

MANUTENZIONE

Per la normale pulizia si consiglia di utilizzare detergenti di uso comune. Si sconsiglia l'utilizzo di detergenti abrasivi, acidi e anticalcare.

Nota

La vasca "DR" deve essere installata su un pavimento perfettamente in piano. Predisporre l'impianto di scarico a pavimento con tubo terminale diametro 40 mm con guarnizione di tenuta.

Le vasche devono essere posate su pavimentazione rigide. Sono a cura dell'installatore la movimentazione in sicurezza, le verifiche strutturali, la portata dei solai e la costruzione del rivestimento.

MAINTENANCE

For normal cleaning use common detergents. Do not use either abrasive detergents or solvents, acids and anti limestone.

Note

The "DR" bathtub must be positioned on a flat floor surface. Prepare the sewage mains in the floor, ending with a 40 mm diameter pipe with a sealed gasket.

The bathtub must be set up on hard flooring. Handling in safety, structural tests and tests of the load-bearing capacity of the floor are the responsibility of the installer, also the construction of the covering.

Predisporre l' impianto per effettuare il drenaggio dell'acqua per evitare che durante l'inverno possa gelare e causare danni a tubi, raccordi, irrigatori. Prepare the system to drain the water, to prevent it from freezing during the winter and causing damage to pipes, fittings, sprinklers.

Il pavimento dove appoggia la vasca deve essere perfettamente planare. The floor for the bathtub must be perfectly flat
